Software Engineer Intern at Leftbrain

Leftbrain is looking for a Software Engineer intern to join us in the spring of 2021. You will receive projects and daily work providing both challenging and fulfilling experiences in helping shape your skill development.

At Leftbrain, you'll solve problems to create an impact for musical professionals across the country. We promote a comprehensive learning environment fostered by senior engineers who will encourage you to think outside the box and share new ideas every day. You'll be given the opportunity to work with modern technologies and experience first-hand what a career with us looks like!

Responsibilities:
• Partner with royalty managers and product owners to guide development of software solutions
• Work with senior engineers to design complex solutions from creation to production
• Develop solutions using the latest technologies to meet business needs
• Learn coding best practices and participate in coding reviews
• Participate in technical discussions related to engineering/product work
• Compile accurate documentation and reports
• Work with departments outside of software engineering on several projects

Skills and Experience:
• Junior or Masters student pursuing a degree in computer science, computer engineering or related field
• Desire to enhance programming skills in modern development languages and database management
• A passion for solving complex technical problems
• Advanced knowledge on computer science fundamentals
• Ability to communicate effectively in a collaborative, fast-paced technical environment
• Basic Knowledge of music creator types (recording artist, songwriter, producer, mixer), and an interest in learning about collecting on music royalties pertaining to sound recordings and music compositions
• Basic Knowledge of Record Labels, Music Publishers, Performing Rights Societies, Distributors and ability to review agreements pertaining to these entities
• Excellent verbal and written communication skills
• Academic performance (minimum GPA = 3.5/4.0)

Benefits and Perks:
• 10-week paid internship, full-time remote
• Casual work environment - were a friendly group, we have fun with each other and have a respectful workplace
• Casual dress-code
• Leftbrain is an Equal Opportunity Employer Leftbrain will conduct all interviews for our internships remotely.
