WE’RE HIRING

System/Network Administrator

Full Time

About the Company:

LaGROU offers regional and national 3PL services from its network of seven strategically-located warehouse facilities. Each facility has a supporting infrastructure including computer network, drayage, pool distribution, co-packing, rail service, EDI, WMS, state of the art material handling equipment, and centralized trucking operations. LaGROU has been providing these services for nearly 50 years. We are ever growing and in need of system/network administrator. Day to day operations in our IT department is ever changing and will keep you on your toes. The IT department is called to do many different tasks to provide the best service to our clients, in turn it provides opportunity to grow and learn.
